PREFERRED JOB

Software developer

WORK EXPERIENCE

02/12/2019–Present

Technical Support Engineer (TechOps)

Breakwater Technology OÜ, Tallinn (Estonia)

I am a member of an agile software development team in startup environment. My primary focus is 3rd line support (help first and second with technical questions and investigations), monitor the production environment to identify bottlenecks and proactive solutions for improvements. I'm in contact with third-party providers in order to solve problems also reporting bugs and improvements to product owner and development team. I participate in sprint planning, task estimation, testing, bug reporting, deploying software, improving the development and release process together with the development and DevOps team.

25/03/2019–29/11/2019

GSD Application/System Supporter

Kühne + Nagel IT Service Centre AS, Tallinn (Estonia)

Kühne + Nagel has grown into one of the world's leading logistics providers which has ~82,000 employees worldwide. Branch in Tallinn is mainly focused on IT systems development and support.

I provide 2nd line expertise and technical support for enterprise IT applications. It's required to know Linux, Java, SQL, Oracle DB, Logs, basics of logistics and more to perform my daily tasks. I also attend internal Java school provided by employer. B2B support mainly.

01/04/2018–22/03/2019

Senior IT Support Specialist

Tieto Estonia AS, Tallinn (Estonia)

As a senior, I handle critical IT issues, propose and test bug fixes, participate in different projects and management meetings, train newcomers, maintain instructions and other. On the background, I still handle huge amount of tickets as usual agent. B2B and B2C support.

16/02/2015–31/03/2018

Service Desk Specialist

Tieto Estonia AS, Tallinn (Estonia)

Tieto is a leading Nordic software and services company which has ~15,000 employees in almost 20 countries.

Lithuanian and English customer support services provided via phone&email&chat channels. Main duties include handling critical/usual situations, finding and fixing root cause, end-user workstation support, software installation/deletion, catch&dispatch tickets. B2B and B2C support.

22/11/2013–01/10/2014

Customer Service Representative

Arvato Services Estonia OÜ, Tallinn (Estonia)

To perform my daily tasks I was required to speak and write in English language. My duties required resolving user account administration requests. My daily tasks were communicating with company employees via incident management system, resolving their tools access related queries, provisioning tools access and collaborating with support teams. B2B support.

12/08/2013–22/11/2013

Customer Service Representative

Arvato Services Estonia OÜ, Tallinn (Estonia)

Arvato Direct Services is the leading service enterprise in Direct-Marketing in Europe and outside European markets. Worldwide more than 30,000 employees work for Arvato direct services.

I handle Microsoft product installation and licensing issues, user administration requests over the phone, email and chat for Lithuanian/Russian end-users. B2C support mainly.

01/07/2012–01/08/2013

IT Admin

JT Company, Visaginas (Lithuania)

As on-site IT specialist I was responsible for servers/workstations/printers set-up and accessibility (uptime), software and hardware maintenance service, monitoring and fixing production issues. B2B support.

01/01/2009–31/12/2015

Project owner

(Lithuania)

Game project I built from scratch was based on ~20 virtual Linux servers, >100 staff members, Java/SQL game files, MySQL database, different monitoring and marketing tools, automated shell scripts, php/html/css/sql/ipboard website & other.

EDUCATION AND TRAINING

30/03/2019–01/12/2019

Certificate in Java Software Engineering

Software Development Academy, Tallinn (Estonia)

378 regular hours of theoretical and practical workshops as part-time/extramural studies of Java/OOP, HTML/CSS, SQL/noSQL, Software testing, Spring, Scrum, Hibernate, JDBC and other. With trainers assistance (senior developers) we've developed such different projects as Battle simulation game, Supermarket checkout system, Social media website and other.

01/09/2015–06/06/2018

Higher university education (Bachelor)

University of Euroakadeemia, Tallinn (Estonia)

I earned my Bachelor's Degree in Business Management in local Estonian university. We have been studying physical/virtual business, office work management, money and banking, logistics, marketing, economics, informatics and more.

01/09/2007–31/05/2010

IT professional diploma

Business & IT educational center, Visaginas (Lithuania)

Secondary education together with professional degree in IT. Basic knowledge of Information Technology, programming, software/hardware maintenance, Windows, Microsoft Office and other.

Job-related skills

As a professional:

I'm working in IT field for more than 10 years already and Software development is the place where I'm going to spend my near future. I'm very stable, attentive to details, fast-learning, fast-working, calm mind person. I don't prefer workarounds, I'm solution person. I'm open for any offers.

My stack: Java, (+basics of C#, Javascript and php), OOP, SQL, NoSQL, HTML/CSS, Git, Spring/SpringBoot, Hibernate, XML, JDBC, MongoDB, MySQL, JSP and Servlets, JVM, Scrum, RegEx, Linux (Ubuntu, Debian, CentOS), Windows (server and client), JMS, SSH, FTP, SFTP, Bash/shell scripting, IP.Board, IntelliJ, Active Directory, MS Office, ServiceNow, Kibana, Jenkins, Google Cloud, Kafka, Docker, Kubernetes, Spinnaker CD, JIRA, Enterprise service bus, Oracle ODBC, Oracle VM virtualbox, Zabbix, Oracle SQL developer, LexEdit, IBM InfoSphere Data Replication, basics of SEO (Google analytics/adwords, meta tags) and more.

As a person:

I'm perfectionist so I won't stop before it gets perfect (means never). My passions are: programming, issue fixing and volleyball. I'm fluent in the English, Lithuanian and Russian languages. On my spare time I'm usually developing ecommerce or Java projects, spending time with my friends and doing sports.
