We offer our customers a One-Stop-Shopping concept in the core areas of the Direct-Marketing: CRM-Consulting, Customer Loyalty, Data management, Lettershop, Customer Service, Logistics and Finance, supported by CRM-IT-Solutions.

Recommendation for Pavel Psecuk

Pavel Psecuk worked in arvato services Estonia OÜ Service Centre for Centralized User Administration Team starting November 2013 on following position:

1. Customer Service Agent (November 2013 – September 2014).

He has proven to be an excellent customer service agent with a strong customer service focus.

To perform his daily tasks he was required to speak and write in English language.

His duties required resolving user account administration requests. He has shown great stress durability, accuracy with resolving the requests, friendliness and dutifulness. He is taking a responsibility for any action he is starting. Pavel is a friendly and good team worker.

His daily tasks were communicating with company employees via incident management system, resolving their tools access related queries, provisioning tools access and collaborating with support teams. In his tasks he has shown capability of following the procedures.

Pavel is also very precise in following agreed tasks and reporting on his daily tasks. I would like to bring out his commitment towards employer and his capability to adapt with the required business decisions.

Inga Kupp-Silberg
